ABOUT LET THERE BE LIGHT

A New Production from The CHAI Concert Experience

Let There Be Light is a powerful multisensory concert experience that takes audiences on an inspiring journey from the story of Creation to the timeless call of leadership.

Led by award-winning Israeli-American soprano Shanee Zamir, the production weaves together breathtaking music, cinematic visuals, and meaningful storytelling to explore one of humanity's most enduring questions: How do we find—and become—light in times of darkness?

Beginning with the first words of Genesis, the concert moves through themes of Jewish identity, courage, resilience, compassion, hope, and purpose. Original compositions, together with beloved Jewish and Israeli music, are brought to life through cinematic arrangements, creating an immersive experience that is both deeply personal and universally inspiring.

As a special addition, the concert also introduces Shanee's forthcoming book, *Let There Be Light*, a collection of thought-provoking reflections that expands on the concert's central themes and invites readers to continue the journey long after the final note. Together, the concert and book create a unique experience that inspires meaningful conversations about faith, identity, resilience, and leadership.

Designed for Jewish organizations, community centers, synagogues, conferences, schools, cultural institutions, and special commemorative events, *Let There Be Light* can be presented as a featured concert, keynote performance, fundraising event, or community program.

More than a concert, *Let There Be Light* is an experience—one that reminds us that even in the darkest moments, each of us has the power to become a source of light.
